Electrolytic Cleaning

PRODUCT DESCRIPTION

'Titanium Iodine Remover' is an Electrolytic stain remover for floors and multiple surfaces. Titanium Iodine Remover is 100% color safe which uses an environmentally preferable Electrolytic surfactant to rapidly and efficiently remove stains without harsh mechanical action or hazardous ingredients. This product is not designed to remove stains on human skin.

THE POWER OF TECHNOLOGY

Electrolytic Cleaning Technology

Utilizing Electrolytic Cleaning Technology allows Titanium Iodine Remover to remove soil by neutralizing the ionic charge of the soil and the surface. Therefore the targeted soil no longer has the ability to stick to the substrate resulting in easy soil removal which also keeps surfaces cleaner for extended periods of time.

Features	Advantages	Benefits
Electrolytic Cleaning Technology	Neutralizes the ionic charge of the floor/surface.	Allows for quicker and easier stain removal.
Multi Purpose/Surface Cleaner	Ideal for resilient/non-resilient flooring, stainless steel and metals.	Saves on chemical, equipment and labor costs
Environmentally Preferable	Made with Electrolytic Surfactants. Does not rely on pH or solvents to clean. Does not contain harsh caustics or alkaline builders.	Reduces health and environmental hazards to the environment, building and users
Easy and safe to apply	Just spray, allow for limited dwell time and wipe away.	Saves on time and employee training costs

PROPERTIES

Physical Form: Clear Liquid
Detergency: Electrolytic Surfactant
Foam Level: Medium
Fragrance: None
pH: 8.0 +/- 0.5
Rinsability: Complete
Wetting: Excellent
Solubility in water: Complete
Emulsification: Excellent
Shelf Life: 2-3 years depending on storage conditions
Flash Point: 92°C

TITANIUM IODINE REMOVER

ELECTROLYTIC AQUEOUS IODINE REMOVER

DIRECTIONS

Treat shortly after contact, and before mopping or washing. Simply spray the ready to use solution of Titanium Iodine Remover on the stain. Some agitation by stiff brushing may be required to remove stains that are old and have come in contact with other chemicals.

Titanium Iodine Remover will easily remove stains left behind by Povidone Iodine solutions. Titanium Iodine Remover will not remove flooring wax; stains under wax will not be removed without stripping the wax first. Some older porous flooring cannot be treated successfully.

Ultra Chem Labs awards its internal Environmentally Sustainable Seal to products that meet third party environmental criteria regarding reduced toxicity, biodegradability, packaging and other characteristics focused on creating a more sustainable environment.

Available in 1 quart Ready to Use

Please Recycle Container No Fragrance Added
